Customer payments: Digital payments only (to Shopynn)

Document purpose: Terms and expectations for independent field agents who introduce retail and warehouse businesses to Shopynn.

Version: 1.0

Market: Ghana

Customer payments: Digital payments only (to Shopynn)

1. Overview

Shopynn is a subscription-based inventory and business management platform for shops, depots, and multi-branch retailers.

You act as an independent sales agent. You introduce businesses you meet in the field, help them understand the product, and support go-live. All customer fees are paid through Digital channels to Shopynn. You are paid commission separately by Shopynn.

2. What you sell (summary)

Plan	Monthly subscription (GHS)	Typical use
Basic	229	Single store, getting started
Standard	429	Multi-branch, transfers, roles (expected most common)
Premium	799	Full platform + customer online ordering

One-time onboarding / setup / training: GHS 2,500 - 6,000 (depending on size and data migration).

Hosting is included in the monthly subscription. Support is via WhatsApp (business hours; priority on Premium).

3. Your role

You will:

- Visit and introduce Shopynn to qualified businesses (retail, wholesale, depots, etc.).
- Explain plans honestly; do not promise features that are not included on the chosen plan.
- Ensure the business completes payment via Digital channels (onboarding and subscription).
- Support initial onboarding handoff to Shopynn for setup and training.
- Use your agent code on every registration you originate.

You must not:

- Collect subscription or onboarding money on your personal Mobile Money or bank account.
- Change prices or offer discounts without written approval from Shopynn.
- Register duplicate or fake businesses to earn commission.

4. Commission structure

Commission is calculated on amounts actually received by Shopynn via Digital channels (successful payment).

Fee type	Commission rate	When it applies
Onboarding / setup fee	15% (one-time)	Once per new business, on the onboarding amount paid
First month subscription	10% (one-time)	On the first subscription payment only
Month 2 and beyond	0%	No commission on subscription renewals

Example - Standard plan (most common)

Onboarding: GHS 4,000 -> commission GHS 600 (15%)

- First month subscription: GHS 429 -> commission GHS 43 (10%)
- Total commission (if both paid): approximately GHS 643

The same percentages apply to other plans, based on the amounts actually paid.

5. When commission is earned and paid

Commission is earned when:

- Digital channels show successful payment for onboarding and/or subscription; and
- The business is attributed to your agent code; and
- Shopynn may require the account to remain active for 30 days before final release of onboarding commission (see clawback).

Payment to you:

- Settlement monthly (or within 14 days after month-end, as confirmed by Shopynn).
- Paid by bank transfer or Mobile Money to your nominated account.
- You receive a commission statement listing each business, fees paid, percentages, and amount due.

Optional payment split (if Shopynn applies):

- 50% of commission after Digital channel success;
 - 50% after the tenant is still active for 30 days.
-

6. Clawback (adjustments)

Commission may be reduced or reversed if:

- Payment is refunded or charged back;
 - The business cancels within 30 days of first payment without genuine use;
 - Fraud or misrepresentation is identified.
-

7. Lead attribution and territories

- Each agent receives a unique code (e.g. AGT-001).
 - The agent who first registers the prospect with Shopynn owns the commission for that business.
 - Territories or focus areas may be agreed (e.g. by city or trade type) to reduce overlap.
 - Disputes are resolved by Shopynn using registration date and internal records.
-

8. Customer payment - Digital channels only

Party	Action
Business (customer)	Pays onboarding and subscription through Digital channels to Shopynn
Agent	Does not keep customer subscription or onboarding money
Shopynn	Pays your commission from revenue received

You may help the shop complete a digital channel payment on-site (e.g. on their phone), but payment must complete to Shopynn's Payment channels, not your personal wallet.

9. Suggested targets (penetration phase)

A reasonable working target per agent:

- 3-5 new paying businesses per month (Standard-heavy), with real go-live and handoff to Shopynn support.

Quality and retention matter more than unsigned trials.

10. What Shopynn provides

- Product overview and plan comparison.
- Digital channels payment path and onboarding flow.
- WhatsApp support for technical and billing escalations.
- Monthly commission statement and payment.

13. Summary

You introduce shops to Shopynn; they pay onboarding and first-month subscription via Digital channels. You earn 15% of the onboarding fee (once) and 10% of the first subscription payment (once) per business you registered. Commission is paid after successful payment and may be adjusted if the business cancels early. You are an independent agent, not an employee.
