Locations	-	Included	Included
Orders / customer ordering	-	-	Included
Stock counts	-	-	Included
Notifications	-	-	Included
Audit logs	-	-	Included
Exports & data export	-	-	Included

Notes

What 'Included+' means

- Included+, on Standard, means additional capabilities beyond Basic (e.g., reorder/expiring stock, receipt sharing).

How access is enforced

- Plans are enforced via backend feature-gating (subscription tier feature codes).
- If a feature is not in your plan, the app will hide it and the API will block it.
